Tech Stacks

Java Development:
- Java SE/EE
- Spring Boot Framework
- API Development (Postman API)
- Microservices Integration

Databases:
- SQL (MySQL, Oracle)
- NoSQL (MongoDB)

Cloud Platforms:
- GCP (Google Cloud Platform)

Cloud Tools:
- Cloud Foundry

Integrated Development Environments (IDEs):
- IntelliJ IDEA
- Eclipse
- Visual Studio Code
- STS

Version Control Systems (VCS):
- GitHub
- GitLab
- BitBucket

Frontend Technologies:
- HTML
- CSS
- JavaScript
- JSP (Java Server Page)
- AJAX
- ReactJS

Build Automation Tools:
- Maven
- Gradle

Project Management Tools:
- Jira
- Confluence
- Trello
- Redmine
- ALM (Application Lifecycle Management)

Specialized Skills:
- Github Copilot
- ChatGPT
- Meta AI
- Anthropic Claude

About Me

I am a results-oriented IT professional with extensive experience in Java development. I specialize in developing APIs, integrating microservices, and working with frameworks like Spring Boot, JSP, and JavaScript for efficient and scalable solutions. Also an expertise in HTML, CSS and Bootstrap.

Professional Experience

IT Experience - 5 years
Capgemini
Feb 2022 – Present

Key responsibilities:
- Leveraged Liferay portal development for creating interactive and user-friendly web applications.
- Utilized JavaScript (JS), AJAX, JSP and other frontend technologies to create interactive and dynamic user interfaces, improving overall usability and functionality.
- Proficient in using leading IDEs such as Visual Studio Code, IntelliJ IDEA, Eclipse, and Spring Tool Suite (STS), optimizing development workflows and productivity & Mastered various shortcuts and productivity tools within IDEs for efficient code navigation, editing, and debugging.

Accenture
Aug 2021-Feb 2022

Key responsibilities:
- Developed Java-based applications, leveraging frameworks like Spring Boot for rapid and efficient development

Asta Systech
Dec 2019 – July 2021

- Key responsibilities:
- Demonstrated expertise in debugging Java projects, both frontend and backend, using IDE debugging tools and techniques.
- Managed project tasks and workflows using Jira, ensuring timely completion of tickets and deliverables without escalations.

Non IT (3 years)
Nov 2015 – Dec 2019

- Key responsibilities:
- Utilized AutoCAD and Revit software for designing and drafting mechanical and electrical systems, ensuring accuracy and adherence to industry standards.
- Created detailed drawings, layouts, and schematics for HVAC, plumbing, drainage, fire fighting equipment, and safety systems

Education Background

● National Engineering College - Bachelor of Engineering
   Completed in 2015

● Rosemary Matric Higher Seconday School
   Higher Secondary Education
   Completed in 2011

● Don Bosco Matric Higher Secondary School
   Primary Schooling
   Completed in 2009

● Currently Pursuing Master of Computer Applications(MCA) in distant from Tamilnadu Open University passed in 1st year scheduled to complete in 2025
